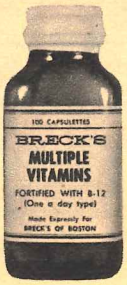
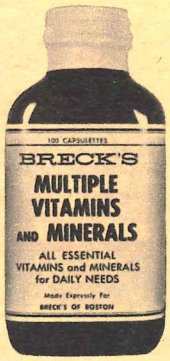
HIGH POTENCY VITAMIN PROTECTION FOR ALL THE FAMILY!

COMPARE BRECK'S PRICES — LESS THAN ½ OTHER BRANDS!

How To Compare Vitamin Quality: There are no "grades" of vitamins! Federal laws require that all vitamins be of the same quality, and that exact potencies be stated on the label! The only basis for comparison is that of formula and potency. If these are the same, then any two brands of vitamins are the same! Higher price does not indicate higher quality — only higher mark-up! Breck's vitamins are hygienically compounded to the same exacting government standards by reputable pharmaceutical manufacturers, and subject to rigid laboratory tests! They are exactly the same formulas as leading nationally-advertised brands — yet you pay less than half the prices of these other brands!

Why You Need Vitamins: Doctors agree that a daily minimum of vitamins and minerals, in one form or another, is absolutely necessary for good health, vitality, prevention of certain diseases. Lack of important vitamins (vitamin deficiency) causes fatigue, loss of pep, nerves and depression. Also, many people are found to need more than the average daily requirements! If you tire easily, work under pressure, are subject to worry and tension, you may be one of the group that needs extra vitamins. Supplemental vitamins should be taken as protection against nutritional deficiency! They are "health insurance" — providing a margin of safety above minimum daily requirements! Breck's guaranteed full potency vitamins help your whole family to maintain sparkling good health!





BRECK'S MULTIPLE VITAMINS
